EXPERIENCES

Leapfrog Technology Pvt. Ltd. (Senior Software Engineer)

— Jan 2021- May 2025

- Led development across multiple healthcare projects, e.g a medicine-dispensing pharmacy platform handling prior authorizations (PA), appeals, and insurance workflows. Owned and delivered key features for the Operations Dashboard and Medical Director (MD) Dashboard, heavily used by healthcare professionals.
- Served as the pod lead for the Nepal offshore team, guiding the end-to-end development of dashboard functionalities for a healthcare project
- Contributed to the Durable Medical Equipment (DME) module within another healthcare project, developing features such as insurance & pricing calculations, delivery workflows, and order control mechanisms.
- Led a Pod with a cross-functional team in a project responsible for feature development, code quality, and bug triage across multiple modules.
- Led an internal initiative, the *Fellowship Management System*, mentoring a team of associate engineers. Conducted regular sync-ups, code reviews, and growth-focused guidance to support their technical and professional development.
- Represented Leapfrog by participating in an internal problem-solving and interview-readiness workshop designed for aspiring developers and interns.
- Ensured high-quality engineering standards across projects through code reviews, architecture discussions, and adoption of best practices.

SmartSites Pvt. Ltd. (Frontend Developer)

— June 2018- July 2020

- Developed frontend for WordPress-based websites, landing pages, and custom themes for clients across diverse industries, ensuring high performance, responsiveness, and maintainability.
- Built scalable, reusable frontend components and collaborated closely with designers to translate UI/UX concepts into interactive, pixel-perfect interfaces.
- Implemented mobile-first development practices with a strong focus on responsiveness across platforms, while optimizing sites for browser compatibility, accessibility, and SEO.
- Conducted UI/UX audits and quality assurance checks to ensure seamless user experiences and adherence to design standards.
- Led a team of aspiring frontend interns, providing hands-on guidance, code reviews, task allocation, and continuous mentorship to help them build strong foundational skills.
- Contributed to improving internal development workflows by sharing best practices and frontend optimization techniques.

EXPERTISE

UI/UX

Figma, User Research, Design Thinking,
Wireframing & Prototyping, Usability testing

Frontend

HTML5, CSS & SCSS, Javascript, Typescript
Tailwind CSS, Bootstrap, ShadCN,
React, State Mgmt (Context, Redux, Zustand),
Tanstack, Storybook, Next.js, MicroFrontends

Testing

Unit Testing (Vitest, Jest), Integration Testing,
E2E Testing (Cypress), TDD

Agile Project Management

Scrum, Kanban, Sprint Planning & Retros,
Jira, Agile Metrics (Velocity, Burndown)

Database

MongoDB, PostgreSQL, ORMs, Database
design, Performance optimization

Backend

Node.js, Nest JS, Golang, API design (REST),
MVC Frameworks, Cache (Redis),
Microservices (gRPC, RabbitMQ)

Cloud & AWS

EC2, S3, RDS, Lambda Functions, Load
Balancer, Auto Scaling Groups

DevOps

CI/CD Pipelines, GitHub Actions, Docker,
Kubernetes

AI

Prompt Engineering, RAG, LangChain, Gen AI
